3 Layer Barrier Films

RMCL manufactures a high performance 3 layer barrier film which provides excellent protection from moisture, light, oxygen and other environmental factors. This 3 layer structure film is engineered to meet the most demanding customer specification and finds a variety of end use applications in the food, industrial, pet care, dry mix and sauce sector.

Polyolefin Shrink Films

High clarity films with high cling and tearing properties

RMCL manufactures a multipurpose polyolefin shrink film and markets the same under three separate brands called Krimpín - a high shrink force film; PROSHRINK - a film with high memory retention properties and Opto - vac - a film with excellent aesthetic properties. This film delivers exceptionally on protection, performance and environmental parameters and has excellent memory properties.

5 Layered Barrier & Non- Barrier Film

RMCL manufactures a high performance 5 layer barrier film using machinery from Dolci of Italy. This film finds extensive application in the food industry. The film is highly transparent, tough and offers features like printability, sealability and very high gloss. Films are produced through coextrusion, using raw materials such as PA, EVOH, LLDPE, LDPE, PP. It offers good hot tack, fast sealing speed and excellent thermoforming.

Characteristics:

- Longer shelf life
- Total insulation from external contaminants and pathogenic agents
- Excellent display on the retail counter
- Perfect mechanical properties
- Suitable for automatic packaging machines
- Peelable if required.
- Can be printed up to 10 colors

Applications:

Food packaging: Snacks foods, Confectionery, Cereals Tea & Coffee, Salami and sausages, Noodles, Baked products, Fish and meat, Edible oil
- Sterilisable packaging: Ready to eat food and Medical Devices

EVOH based Films

EVOH based 5 Layer films have excellent process ability and outstanding barrier properties. The key to this balance is the unique combination of the proper co-polymerisation ratio of ethylene to vinyl alcohol, the carefully selected degree of polymerisation and the unique proprietary manufacturing process used in the production of EVOH copolymers. These unique polymers are Blown in a 5 layer film process.

Applications:

Suited for food, medical, pharmaceutical, cosmetic, agricultural and industrial packaging and automotive applications.

Nylon based Films

Nylon based 5 layer films are used to deliver an enhanced barrier function. This film combines the properties of excellent mechanical strength, good abrasion and puncture resistance, transparency, oxygen, chemical and aroma barrier.

Applications:

Suited for spices, fruit juice, detergents, toothpaste packages, herbicides, pesticides and fungicides packaging.

PET-PP Straps

High tensile strength for securing boxes and pallet loads

RMCL offers a wide range of PET straps which are light weight, easy to use and suitable for strapping packages. These straps have over twice the resistance to shock loads as compared to steel straps and also the ability to stretch just slightly to absorb shock and recover. Available in different length, width and thickness these PET straps are reliable, safe and economical. They can be used with manual strapping tools and semiautomatic strapping machines.

Air Bubble Sheets

Lightweight, water resistant, transparent sheet with excellent cushioning properties

RMCL offers Air Bubble wrap sheets, a flexible and transparent plastic sheeting containing numerous small air pockets. The sheets offer cushioning and scratch protection far superior to packing paper and are used to protect items during shipping and storage. Bubble wrap is lightweight, water resistant, reusable non-scratching and is used for packing fragile items. It can also be used to cushion medium to heavy weight products

Offset Printed Cartons & Liner Cartons

RMCL today offers a wide range of printed, plain and liner cartons. It also has the production facilities to create tailor made cartons for diverse industries as well.

It can create food or non- food packaging cartons and offers plain cartons in ready sizes or as a bespoke item. Range includes standard cartons, standard mailers, 2 piece lid and base, corrugated and fluted boxes, flat pack lid, reverse tuck in end style, straight tuck in cartons etc.

Technology

RMCL employs the most efficient carton making machines in the industry like Planeta 6 color super variant and a 4 color Man-Roland offset printing machine to print high quality paper boxes. These boxes are then further processed on equally efficient punching and gluing machines from Bobst and Vega respectively.

For liner pasting it has a liner pasting machine from Heiber + Schröder Maschinenbau GmbH

Characteristics:

- Made from material from board supplied by selected paper mills
- Extremely durable
- Highly functional
- Very convenient
- Various lid / closure options
- Multi use
- Cost effective
- Easy to assemble

Applications:

- Food Packaging
 - direct and indirect contact
- Pharmaceutical Packaging
 - industry standard sizes, tablet cartons and white standard
- Printed & Plain Cartons

Metallised Film

Attractive metal layer, highly ink receptive, excellent barrier properties

RMCL manufactures a range of metallised films which offer the advantages of both metal and plastic films. These films offer consumers much more versatility in application, increase the aesthetic appeal of products and also enhance barrier properties.

BOPP Tapes

For high performance and superior adhesion

RMCL offers a wide range of self adhesive BOPP tapes manufactured from a thin flexible tape, coated with a superior acrylic base adhesive on one side. These tapes are UV and weather resistant, user friendly and come with scratch proof multicolour gravure printing. They are of assured and marked tape length and guarantee tamper proof packaging and quick product identification.
